WORKSTATION SPECIFICATION

Document Version: 1.2
Date: November 8, 2026
Target Environment: Hyper-V Virtual Machine / Pluralsight Cloud Server
Assigned Profile: Systems Administration
Status: VERIFIED

1. HARDWARE

Processor (CPU):
- AMD EPYC 7571 (2.20 GHz)

Memory (RAM):
- Memory form factor: DIMM
- Allocated Capacity: 4.00 GB

Storage system:
- Primary System : 49.50 GB Virtual Hard Disk
- File System: NTFS (Windows) / Ext4

2. OPERATING SYSTEM & ENVIRONMENT CONFIGURATION

Operating System: Windows Server 2025 Datacenter
Kernel / OS Build: 26100.33650

A. Display Subsystem Configuration:
- Desktop Resolution: 1920 x 1080 (Landscape)
- UI Scaling Factor: 100% DPI Scaling
- Session Mode: Hyper-V Enhanced Session Active (Dynamic Resizing)
- Status: PASSED (Verified edge-to-edge canvas rendering)

B. Power Management Configuration:
- Power Plan: High Performance (GUID: 8c5e7fda-e8bf-4a96-9a85-a6e23a8c635c)
- Display Timeout: Never (AC / Plugged in)
- System Sleep Timeout: Never (AC / Plugged in)
- Hibernation / Fast Boot: Disabled
- Status: PASSED (Verified continuous headless execution)

C. Accessibility Subsystem Configuration:
- Text Size / Scaling: 115% Increased Legibility
- Pointer Configuration: High-Visibility Large / Inverted Scheme
- Keyboard Accessibility: Sticky Keys enabled & tested via 5x Shift keypress
- Status: PASSED (System notification tray icon active)

3. IDENTITY, ACCESS MANAGEMENT & SECURITY POLICIES

Local User Account Inventory:
- Primary Administrator: Administrator / cloud_user
- Account Purpose: Least-privilege operational execution & testing

- User Rights: Restricted from driver install, firewall, and system-wide registry modification.

Security Baseline & Password Policy:

- Maximum password age 42 days
- Minimum password age 0 days
- Minimum password length 0 characters

4. SOFTWARE DEPLOYMENT & APPLICATION CONFIGURATION MATRIX

Application 2: Notepad++

- Install Path: C:\Program Files\Notepad++\notepad++.exe
- Category: Configuration & Script Editor
- Non-Default Configuration: Preferences > Backup > Enabled "Verbose backup"
- Technical Justification: Preserves timestamped snapshots on save, protecting against syntax loss when editing system config files.
- Verification: Verified generation of backup file in designated directory.

Application 3: Wireshark

- Install Path: C:\Program Files\Wireshark\Wireshark.exe
- Category: Network Packet Dissection
- Non-Default Configuration: Layout > Side-by-side vertical split for Details & Bytes
- Technical Justification: Maximizes vertical screen space on 1080p displays to simultaneously inspect deep protocol headers and hex bytes.
- Verification: Verified two-column packet view layout across active interfaces.

Application 4: Google Chrome

- Install Path: C:\Program Files\Google\Chrome\Application\chrome.exe
- Category: Web Browser
- Non-Default Configuration: Downloads > "Ask where to save each file before downloading"
- Technical Justification: Prevents system volume (C:\) drive exhaustion by prompting operators to direct large downloads to designated storage arrays.
- Verification: Confirmed download path prompt triggers on test download.

5. SYSTEM PATCHING & UPDATE VERIFICATION

Update Source: Windows Update / Microsoft Update Catalog
Update Mechanism: PSWindowsUpdate / Settings GUI
Service Status: running
Verification State: "You're up to date" (Green Checkmark confirmed)
Documentation Evidence: Screenshot logged as Windows_Update_Verified.png
